Passwords to be Issued to OLLI Members

Expect to receive an email communication in a few weeks about activating your online OLLI account. The message will give you a temporary password. You'll be able to select a permanent password by clicking the link that will be included in the email message.

Full detailed instructions will be included.

Once you have online access to your account, you'll be able to renew your membership and sign up for OLLI courses. You'll also have access to your OLLI online profile so you can make address, email, or phone number changes.

We are not ending paper registration, however. You'll continue, if you choose, to be able to print and use the coupon on our website or mail back the renewal form you'll receive during the summer. However, we are hoping that you will take advantage of the far more convenient and accurate online method.

So, look for the email message coming soon.

If you have any questions, please contact [Mark Gordon](#).
